OUR ETHOS

Toddles aims to provide a welcoming, safe, secure and stimulating environment for all.

To help aid each child's development we use the Early Years Outcomes Framework which covers all areas of learning. Our aim is to support and guide children through each of their development helping to ensure school readiness in order to make the transition from pre-school to their next stage of their learning journey as smooth as possible.

We aim to provide an enriched environment both indoors and out, with opportunities that continuously challenge and promote independence for each child regardless of what stages of learning they may be at. We believe in equal opportunities and diversity for all. We treat all children with the respect they deserve and aim to meet every individual's goals. For more information regarding this please see our inclusion policy.

At Toddles we believe each child's learning experience should be positive and inspiring, therefore staff training is vital to achieve this aim. It is important to update training so that we can provide a continuity of knowledge, in order to provide the best standard of care and development for each child. Toddles understands the importance of parent's and carers contributing to their child's development. For this reason, we aim to ensure that we work in partnership with parent/carers.
